

Lebanon Square Circlers

Plus Class Notes March 3rd, 2024

The following definitions can be found at:

ceder.net/def/class_notes.php

The Plus moves we taught last Sunday are:

Diamond Circulate

Each dancer moves forward to the next position in his diamond, changing his original facing direction one-quarter (90°) toward the center of the diamond. Points become centers, and vice versa. If the call is directed to facing diamonds, all must pass right shoulders.

Single Circle to a Wave

Facing dancers join both hands with each other and Circle Left halfway. Without stopping, they drop hands with each other and individually Veer Left, blending into a right-hand mini-wave. If the caller directs "Single Circle 3/4 to a Wave", facing dancers join both hands with each other and Circle Left 3/4, then continue to execute the rest of the call as above.

Trade the Wave

Dancers facing the same direction in the wave Trade with each other. Right-hand waves become left-hand waves and vice versa. Ends of the wave become centers and vice versa.

Flip the Diamond

The centers of the diamond do a Diamond Circulate to the next position in their diamond, while the points Run ("Flip" 180°) into the nearest center position and join hands to become the centers of the forming wave or line. When "flipping" a facing diamond, the points always take the inside path, and the centers always take the outside path.

Grand Swing Thru

Starting formation - Tidal Wave, Ocean Wave of Six Dancers. TIMING - 6
Those who can turn by the right one-half (180°), then those who can turn by the left one-half (180°). If "right" is not specified preceding the command to Grand Swing Thru, it is understood to be a right-handed Grand Swing Thru. If Grand Left Swing Thru is required, it must be specifically directed - "Grand Left Swing Thru", in which case, those who can turn by the left one-half (180°), then those who can turn by the right one-half (180°).

Follow Your Neighbor and Spread

From parallel waves: Those facing in step forward and arm turn 3/4 by adjacent arms, then spread apart. Those facing out Split Circulate and then step and turn into the nearest center position in the new parallel waves. Right hand waves finish as right hand waves.
